A CABINET FOR MINERALS.

Of something certain to prove of benefit, we clip from the *Enterprise* as follows:

The cabinet of the Pacific Coast Pioneers, in which to display their collection of ores and curiosities, is about completed. It has seven compartments, with glass doors, each compartment containing thirteen shelves covered with black velvet, and of an ingenious graduation of the pitch of the shelves every specimen laid upon them will be plainly visible, together with the number of each, to a person standing in the center of the room. The total length of the cabinet is thirty two feet, its height eleven feet, and at the top of the cornice which surmounts the whole is arranged a shelf the entire distance, upon which to place larger articles which do not need close inspection. Beneath these shelves are drawers for unclassified objects, such as gold, silver, zinc, copper, lead and other ores. At the west end of the room is a large standing show-case, in which to place delicate specimens to prevent their ruin by handling. There is also a large and elegant show-case for the center of the room, and in order to double its capacity and at the same time to display properly each article placed in this case, a plate-glass is to be placed in the center. This case also has several shelves under it for the storage of duplicates and such other things as do not need frequent examination. Friends of the Pacific Coast Pioneers in all parts of the country may now rest assured that every specimen they may donate will be properly labeled and displayed. In a few years the "Old Boys" will have a cabinet that will not only be very valuable, but also will be well worthy of the examination and study of scientists.

ENORMOUS LOSSES BY FIRE.

Speaking of the vast—and to a great extent avoidable—destruction of property by fire in this country, the *Fireman* says that fires are increasing, both in number and destructiveness, far more rapidly than the increase of wealth and production. It is computed that from annual loss by fire in 1868 of \$5,000,000, the annual loss exclusive of exceptional fires, such as Boston and Chicago—if they may be called "exceptional"—has increased to \$100,000,000. The full significance of this statement cannot be realized unless analyzed. This loss is the irremediable loss of human product and industry. It is the conversion of human blood, brawn and muscle, necessary to produce \$100,000,000 of value, into ashes and smoke. Assuming the labor that produced this value to be worth \$3 per day, this loss is the loss of more than the combined labor of 100,000 men for one year. Then, too, it must be remembered that this is the surplus production. It has been accumulated by producers after earning livelihoods for themselves and families, and paying their share of the cost of government and their proportion of the burdens of society. It would require, then, the labor of 100,000 men for twenty years to replace by surplus production this annual loss. It is not only so much wealth subtracted from the wealth of the country, but it is the loss of the productive power of so much capital.

CATARRH

THE EYE, EAR and THROAT

Successfully Treated with
SANFORD'S RADICAL CURE.

SUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, after so many disastrous failures, means undoubted specific curative properties in the remedy used. Does SANFORD'S RADICAL CURE for Catarrh possess such properties? The evidence, in the shape of unqualified testimonials from the remedy used, is in all directions of life, must be conclusive on this point. Now, we believe, in the history of popular medicine, has such unqualified testimony been offered, in favor of any remedy, than that in the possession of the proprietors of SANFORD'S RADICAL CURE. And undoubtedly, it does not represent a compromise of the recommendation, which is made by friends to friends, in its favor. A single case of Catarrh in all its forms, if daily administered, will surely overcome any method of cure known to the regular medical profession, but when the publicity incident to a published statement, hence the testimonials in our possession, are taken into consideration, of those who have been cured, and the remedy so displayed, that it is a doubtful matter whether I could go to the medicine, or if I did go whether I should live to go back on it. I saw and administered this medicine, and although being very incredulous about specifics or nostrums of any kind, yet in sheer desperation I tried this, and was at once benefited. The change of climate, a chronic disease of the liver, and my age—over 70—prevented my entire restoration, but the benefit I derive from this medicine is so free and so sure, and I am hoping to be completely cured, and at last arrive at a respectable old age.

INVALUABLE.

Messrs. Weeks & Potter, Wholesale Druggists, Boston, Mass., send me some of this medicine. It is a duty that I owe to suffering humanity to write you, stating the great benefit that I have derived from the use of your Catarrhal Cure. I have Catarrh. For more than 20 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, and without any (that I remember) benefit. Just fall the disease had arrived at that state that I must have relief or die. Two entire membranous systems had been removed, and the stomach so disordered, that it was a doubtful matter whether I could go to the medicine, or if I did go whether I should live to go back on it. I saw and administered this medicine, and although being very incredulous about specifics or nostrums of any kind, yet in sheer desperation I tried this, and was at once benefited. The change of climate, a chronic disease of the liver, and my age—over 70—prevented my entire restoration, but the benefit I derive from this medicine is so free and so sure, and I am hoping to be completely cured, and at last arrive at a respectable old age.

If this statement of my case can be of any service to those afflicted as I have been, and enable you to bring this remedy into more general use, especially on the Pacific coast (where it is much needed), my object in writing this note will be accomplished.

Very truly yours, HENRY WELLS.

Counterfeit half dollars are in circulation, and as they are apt to deceive, unless closely examined, it will be well for those who handle silver to be on their guard. Seeing the great necessity of accommodating our large number of customers who reside in the southern part of San Francisco, I have opened a fine establishment for their accommodation. All wishing to purchase any article from my immense stock, may be assured of getting only first-class articles. For Sale or Lease. The blacksmithing and wagon-making shops, situated at the corner of Sierra and Fourth streets, Reno, are for sale or lease. The blacksmith shop contains four sets of tools complete, and the wagon making shop is fully appointed. The tools in both shops, in connection with the shops themselves, will be leased, and all the stock and material contained therein is for sale. Both shops are now doing an excellent business, and will be disposed of on very reasonable terms.

Legislative Oath.

Major Mann has drawn up an oath which he insists shall be sworn to by our Assemblymen before he will issue their certificates of election. Jack Fouls took it like a man. The oath prohibits selling votes for less than \$5, indulging in immoral practices of any kind, and winds up by binding the subscriber to play draw poker according to Hoyle and Bob Schenck.

Assignment.

W. J. Luke has made an assignment of his property and accounts for the benefit of his creditors. He was pushed to this by Huntington, Hopkins & Co. His assets will more than cover the liabilities. We are sorry that Mr. Luke has met with such a bad streak of luck. He is as good a citizen as Reno ever had.

Stocks.

The panic seems to have spent its force and the worst is probably over, though it will be some time before there will be much change for the better. The market yesterday was quite steady and strong. The Sierra Nevada mine is reported better than ever. The market will eventually follow the mine.

Stronger.

The stock market was quite strong after the board yesterday afternoon. Union was 84, Sierra Nevada 85, Ophir 45, Mexican 44, Chollar 41, Jacket 18, B. & B. 17 1/2, H. & N. 11, and so on. We should not be surprised to see a still further advance to-day.

The weather is perfectly lovely. It could not be nicer if made to order.

THE COMMITTEE'S REPORT.

The committee of five appointed by the mob in Virginia on Wednesday, to examine the Sierra Nevada mine, made the examination, and the Enterprise of the 21st gives the substance of their report, as follows: They carefully examined the mine and report that the crosscut on the 2200 level measures 22 feet in length on one side and 21 feet on the other. From where the ore was first struck to the face of the crosscut the distance, measuring on the bottom, is ten feet, and six feet of the top of the crosscut is in ore. This, they say, is all told ore of excellent quality. While the committee were in the mine a blast of five shots was fired in the face of the crosscut, throwing out ore of the richest character. Specimens of this were brought out of the mine, and are as fine as any ever obtained from any part of the crosscut. They describe the crosscut as being intensely hot—so hot that it is almost impossible for men to work there. This probably accounts for the slow progress made. In regard to the 2100 level they all agree that the crosscut is still in a mixture of cap rock and low grade ore and say that it has not yet been advanced a sufficient distance to reach the true ore body. Some of the men thought the real ore body would be reached in 24 hours, while others thought it would require 48 hours to reach it. All agreed that the mine is presenting a very fine appearance and came out well pleased and thoroughly satisfied with it. The report of the committee has given backbone to all who have heard it and our people will to-day be buyers according to their means.

ORRIN HAYMOND of Sacramento is credited with the following criticism of the work of the California Constitutional Convention thus far, one-half of the allotted time of which has been consumed: The Convention has made a good beginning; the Convention has abolished the Grand Jury, emancipated the petit jury, established the whipping post, muzzled the press and checked off free speech.

New DEPARTURE.—On and after December 1st, 1878, the store of Manning & Duck will be conducted on a cash basis. Every customer will be compelled to pay for his own goods. No extra profits for bad debts. We propose to sell goods cheaper than they have ever been sold in this market. We are compelled to this important step by several weighty reasons: First, we wish to encourage prompt payment. Second, the prompt payer should not be compelled to pay an extra profit for the slow customer or the man that never pays. Third and most important reason, we are not able to carry so large an amount of our capital on our books and keep up our stock of goods. Good gilt edge customers will be allowed a credit of thirty days. If by agreement longer time is given, interest of 1 1/2 per cent. a month will be charged.

A CARD TO THE PUBLIC.

I do not sell any goods 20 per cent. below cost, or even at cost, but I offer my first class stock of clothing, furnishing goods, boots and shoes, hats and caps, trunks and valises, etc., etc., which have been bought for cash, at the lowest market rates. Therefore I wish the public to post themselves on my prices before going to the humbug shops where they are always drumming into the ear that they are selling at cost, or below cost. They either bought unsalable goods or they lie to deceive the public; they don't deserve to be patronized. Remember the One Price Store—The White House—No. 19 Commercial Row, next door to the Postoffice. L. ABRAHAMSON.

All indebted to them are desired to come up and settle immediately.

A GOOD PLAN.
The most profitable plan for operating in stocks is that of uniting capital of various sums by combining or pooling the orders of thousands of customers and using them as one mighty power, which has been done so successfully by Messrs. Lawrence & Co., Bankers, 57 Exchange Place, N. Y. City. By this co-operative system each investor is placed on an equal footing with the largest operator, and profits are divided pro rata among the shareholders every 30 days. An investment of \$10 would pay \$30, making 3 per cent on the stock during the month. \$25 would return \$150, or 6 per cent; \$100 would make \$1,000, or 10 per cent, and so on according to the market. Frank Leslie's Illustrated Newspaper, June 20th, says: "The Combination method of operating in stocks is the most successful ever adopted." New York Independent Sept. 12th, says: "The combination system is founded upon correct business principles and no person need be without an income while it is kept working by Messrs. Lawrence & Co." Brooklyn Journal, April 29th, says: "Our editor made a net profit of \$101.25 on an investment of \$30 in one of Messrs. Lawrence & Co.'s combinations. The firm's new circular (copyrighted and sent free) contains two interesting tables for stock operations, and explains everything. All kinds of Stocks and Bonds wanted. New Government Loan supplied. Best references. Address Lawrence & Co., Bankers and Brokers, 57 Exchange Place, New York City.
